

MASTERPRO

PREMIUM QUALITY

ELECTRONIC SCALE WITH STAINLESS STEEL BOWL

FEATURES

- Capacity: 5kg/11lbs
- Graduation: 1g/0.1oz
- Units: g, lb :oz, ml, fl.oz
- Tare function
- Auto off function
- 2 x AA batteries included
- Low battery and overload indication
- Warning indicators **Lo** - (low battery)/ **Err** - (error)
- Both unit measurement systems: Metric (g,ml) and Imperial (lb:oz, fl'oz)
- Non-slip feet
- Removable stainless-steel bowl
- Digital display

OPERATING INSTRUCTIONS

- Place scale on a firm, flat surface to use. A kitchen bench is ideal.
- Press the **ON Z/T** key to turn the scale on.
- Press the **UNIT** key to select your preferred mode/unit of measure (Long press).
- If the screen reads **Err** the scale is overloaded, please remove the weight.
- Press **ON Z/T** for Tare. Tare lets you reset readout to zero before adding other ingredient to the bowl. This is useful when a recipe requires multiple ingredients to be added to same bowl. Add additional ingredients slowly and carefully while keeping an eye on the readout when using the tare function as if too much of a subsequent ingredient is added, it will be difficult to accurately remove excess weight added to combined ingredients in bowl. A negative weight will appear if the weight is removed when using Tare function.
- Hold the **ON Z/T** key to turn the scale off. Alternatively, scale will turn off after 60 seconds of inactivity.

CARE INSTRUCTIONS

- If the screen reads **Lo** the scale will turn off after 1 second. Replace the battery.
- Bowl is dishwasher safe. Dry before and after each use. The scale body wipe clean with a damp cloth and dry before and after each use.
- Do not leave the scale in a damp or steamy environment.
- The scale is for domestic use only and is not intended for commercial, medical or scientific applications.
- If the scale is not being used for a long period, please remove the batteries.

WARNING: KEEP BATTERIES OUT OF REACH OF CHILDREN.

Swallowing batteries may lead to serious injury or death in as little as 2 hours due to chemical burns and potential perforation of the oesophagus. If swallowed, immediately go to a hospital emergency room. Dispose of used batteries immediately. Keep new and used batteries away from children. If the battery compartment does not close securely, stop using the product and keep it away from children. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

GUARANTEE

If after following these instructions the scale still does not work, there may be a manufacturing problem. If this is the case, Albi guarantees this product for 5 years from the date of purchase. The full details of this guarantee can be found at www.albi.com.au or by calling (03) 9474 1300. In the event of such a problem you should return it to the place from which you bought it, WITH PROOF OF PURCHASE, in the form of a valid receipt. Damage through misuse will nullify this guarantee.
